

The Pre-K Class of Newgulf Elementary
would like to thank you for the
educational presentation of Birds of Prey.
Our students learned about animals habitats
and how to take care of the young in class.
This year, they learned about predators and
prey which helped enhance their learning.
When you spoke about camouflage, the
students were excited because they had
already learned about it.

Your presentation was geared to their level.
Thanks again for your time and helping
educate the youth of the world.

Sincerely,

Melinda Gary
Pre-K Teacher
